IP65: Suitable for Wet Locations

IK08: Impact Resistant (Vandal Resistant)

UJE-30692

Jet 13 square wall up-down light

Wall mounted luminaires with different reflector and beam distribution options for upward and downward lighting. Jet 10,11 has an excellent optical system as well as high efficiency with a long service life. Designed to illuminate the wall surface and for light accents on vertical surfaces.

Low copper content die-cast aluminum housing and aluminum top and bottom frame with integral anti-glare baffles. Stainless steel screws. Durable silicone rubber gasket and clear toughened glass. Single cable entry. Housing is treated with a chemical chromatized protection before powder coating, ensuring high corrosion resistance. Integral control gear. Anodized high purity aluminum reflector.

For horizontally mounted single lamp configurations a one piece multi directional anodized high purity aluminum reflector is used for up and down light distribution. Two lamp configurations use individual reflectors for up and down light distributions. Mounting plate for 3" junction box is provided with the fixture.

Physical Data

Length: 9.84" Height: 15.75" Weight: 7.7 lbs

Lamp

□ PAR-38 HAL 2x120w • (1)

(For More Lamp options including LED, please Consult the Catalogue, Website or Contact The Ligman Lighting Factory)
