

IP55 : Suitable for Wet Locations
IK07 : Impact Resistant (Vandal Resistant)

UMA-97071

Mar 7 single area light type IV

A small size cylindrical shape street light using metal halide or high pressure sodium lamps 70-150w. High quality reflector designs provide options of a broad light distribution or forward throw distribution. The luminaires are suitable for downward lighting at a 5 degree tilt. Designed for lighting private roadways, modern street suburbs and city centers.

Aluminum frame and body. Stainless steel screws and hardware. Durable silicone rubber gasket and impact resistant toughened glass diffuser with hinged aluminum frame for in-position lamp replacement. The luminaire is treated with a chemical chromatinized protection before powder coating, ensuring high corrosion resistance. Integral control gear. Anodized high purity aluminum reflector. Mar 1 and 2 fit over the top of a 3" tenon.
