## Suitable for wet locations

A range of asymmetrical and bi-symmetrical wall mounted luminaires for use in uplight or downlight applications with a selection of energy saving compact fluorescent and metal halide lamps. Flat glass cover for minimum spill light. Austin is suitable for lighting footpaths, car parks, building facades, entrances, under canopies and signs. The LED luminaires have features such as long life, limited maintenance and constant lifetime performance.

Low copper content corrosion resistant die-cast aluminum frame and body. Stainless steel screws and anodized high purity 95% reflective aluminum reflector. Durable silicone rubber gasket and impact resistant toughened glass diffuser. The luminaire is treated with a chemical chromated protection before powder coating, ensuring high corrosion resistance. Integral control gear. To maintain the integrity of the IP rating of this luminaire it is supplied with a specially designed SHG self sealing wiring grommet that is used when connecting to the power supply. This grommet insures that water and dust does not enter the luminaire through the knockout hole in the back of the luminaire.

Emergency option available. For compact fluorescent luminaires.
