## UMA-30888

### Mar 5 wall wash area light

A cylindrical shaped wall mount area light with cut-off light distribution for metal halide or high pressure sodium lamps 70-150w. High quality reflector design provides options of a broad light distribution or forward throw distribution. The luminaires are suitable for downward lighting at a 5 degree tilt using a classical arm bracket. Designed for lighting footpaths, car parks, building façades, under canopies and roadways.

Single cable entry. Low copper content corrosion resistant die-cast aluminum frame and body. Stainless steel screws. Durable silicone rubber gasket and impact resistant toughened glass diffuser with hinged aluminum frame for in-position lamp replacement. The luminaire is treated with a chemical chromated protection before powder coating, ensuring high corrosion resistance. Integral control gear. Anodized high purity 95% reflective aluminum reflector.
