

Eco bollard

IP65 ◆ ▲ ▲ / EN 60598 / CLASS I ⊕ / ▽ / CE / IK08

Suitable for wet locations

A range of rectangular bollards, with a regress lamp and excellent glare control. Suitable for illuminating pathways, driveways and squares. The spread lens provides a wide beam spread evenly illuminating up to 23.0ft of a pathway. Available with options of energy saving compact fluorescent lamps as well as metal halide and high pressure sodium.

Low copper content die-cast aluminum housing with a high corrosion resistance. Stainless steel screws. Durable silicone rubber gasket and toughened linear spread lens. Housing is treated with a chemical chromated protection before powder coating, ensuring high corrosion resistance. Integral control gear. Anodized high purity aluminum reflector. The internal control gear is secured in a separate but integral waterproof housing, Maintenance is performed from the top of the luminaire.
